

readMagData

```
graph LR; readMagData[readMagData] --> readBytes[readBytes]
```

A diagram showing a call from the readMagData function to the readBytes function. The readMagData function is represented by a gray rectangular box on the left, and the readBytes function is represented by a white rectangular box on the right. A blue arrow points from the right side of the readMagData box to the left side of the readBytes box, indicating the direction of the call.

readBytes
